

## SATELLITE Freshwater LED

# Satellite Freshwater LED

## Specifically designed for freshwater aquariums

### Dialed-in color

Super bright 6500K white LEDs and rich 445nm blue LEDs come together in an amazingly sleek fixture that's dialed-in for freshwater aquatic environments like nothing before.

Our engineers have created custom color temperature settings that bring favorites like cichlids, live bearers and tetras vivid life. This revolutionary fixture also features independent control of the white and blue LEDs, allowing users to select a color mode that brings your

aquarium and all its residents into their best possible light.

### Must-see effects

Beyond the world of white and blue light, the Satellite LED also features effects that mimic real-world aquatic conditions. With modes that dim periodically to create cloud cover effects, storm modes that will blow you away complete with lightning strikes and innovative evening modes that include lunar and dusk – it's sure to add excitement and intrigue to any aquarium.

### Wired Remote Control Features

- On/Off/Dimming of white and blue LEDs together or independently
- Three fade modes for cloud cover effects
- Two lunar light modes
- Two storm modes with lightning and cloud cover effects
- Dusk mode for evening viewing

**A fresh take on freshwater lighting.**

With so many new technologies coming into the industry, we decided it was time to laser focus our experts on a new challenge – reinvent the freshwater aquarium. Drawing on our years of expertise in both fresh and marine aquarium product development we have created another industry first – a fixture that was engineered from the ground up for freshwater aquarium environments. Making it the perfect choice for a beginner setting up their first tank, or a seasoned veteran looking for a significant upgrade.

**The perfect fit**

Sliding docking legs allow quick and easy adjustments for a wide variety of installations. This system also makes adding multiple fixtures a snap.

**Low voltage, super safe LEDs**

Low, 12V DC, IP65 rated LEDs making them super safe for aquarium use. (see chart below for specs)

**Plus it up!**

Like what you see? You'll also want to check out the Satellite Freshwater LED+. It adds excitement and convenience with the industry's first remote controlled, full-color (RGB+White) fixture. Learn more at [www.current-usa.com](http://www.current-usa.com).

**➔ What's in the box**

- 1 Satellite LED fixture
- 2 adjustable docking mounts
- 1 12V DC UL transformer
- 1 wired LED remote control
- Complete instructions
